

# Human Resilience In One-Click

CybeReady provides a fully-managed security awareness training solution for cybersecurity leaders looking to achieve culture and behavior change with no dedicated IT resources.

CybeReady's solution includes the expertise needed to implement an effective employee awareness program out of the box. The impact on culture and behavior change is achieved via a proprietary methodology that creates a Ripple Effect: aggregation of small actions, employee engagements and data points that add up to yield a significant, measurable impact on organizational resilience.

## **BLAST** | Phishing Simulations & Learning

Continuous Phishing Simulations and Learning solution trains employees to detect and avoid phishing attacks. Content adapts based on employee's performance and location (in 40 languages) and provides personalized and effective learning experiences.

## **AuditReady** | Free-Hassle Compliance

The perfect add-on to CybeReady's autonomous training platform, AuditReady allows you to achieve, maintain and prove compliance with ease.

It automatically sends mandatory security content to employees, tracks their completion and generates one-click reports.

## **CAB** | Continuous Awareness Bites

Awareness bites & quizzes are sent to employees' inbox continuously for a short (30- second), engaging learning experience. Training covers all topics required by NIST, including: Passwords, Clean Desk Policies, Removable Devices, Privacy & Information Sharing, Phishing & more.

## **PhishCage** | Employee email reporting button

Prompts employees to report suspicious emails and provides immediate feedback and learning reinforcement with every engagement.

PhishCage analytics display comprehensive data on employee behavior and culture change over time.

As part of CybeReady's commitment to inclusivity, the solution offers a Customizable Accessibility Interface to accommodate users with vision, motor, or cognitive impairments (WCAG 2.1 AA Compliance Standards)

## THE IMPACT

# 100%

Complete workforce training every month

# 8x

Reduction in high-risk group

# 4x

Increase in employee resilience
